# Secure Telecommunications

## Secure Telephones

Secure Telephone Units (STU-III's) are used to conduct classified or sensitive unclassified conversations between NRC Headquarters, Regional offices, and other government agencies. Below is a listing of locations and holders of STU-III phones at NRC. NRC also has portable and cellular STU-III's available. For further information regarding STU-III's, contact the Information Security Branch on 301-415-2264.

## Secure Teletype and Facsimiles

NRC's Secure Communications Center is on-line with the Department of Defense's Automatic Digital Network (AUTODIN) system to receive and transmit classified or sensitive unclassified teletype messages worldwide. The Communications Center also has three secure facsimile machines available to receive and transmit classified information, as well as Crisis Management Network (CMN) capability. For more information or assistance, contact the Information Security Branch on 301-415-2264.
